**Hi Nic,**

**I'd been using Jim Dunlop Jazz III's pretty much exclusively for the last four years, but these Raptor picks are a step up. The thickness in the centre makes them easier to hold, they're more versatile, and they feel sturdier. I've found a new favourite!**

**Hi Nic,**

**My raptors arrived today and they are remarkable. 35 years of playing and innumerable gigs (I'm a journeyman blues/rock lead player, no claims to greatness) had me kind of convinced a plectrum could not get me excited, but trying these on spec was a seriously good move. If I had to describe them I would say, simply, 'they are just right' and you have to try one to see how good they are. My zillions of other picks are now redundant.**

**These picks are the bomb!**

**Outstanding! I've been playing for decades and have thrown away soooo many picks...too fat-thin-floppy-hard-small-big...or just greasy after one tune, but these picks are grip heaven and the choice of tips is great-get the right tool for the job!**

**Hi Nic, picks arrived this morning and stunning they are too.  
Many thanks for the swift dispatch.**

**Hello,**

**I've been playing with your picks since this Monday. Let me tell you that they are awesome. The pick is so precise even on the thickest point and the notes have a bell like quality when they are released and besides all the sonic/musical qualities, they are absolutely the coolest looking picks ever!**

**Hi Nic,**

**Raptor pick arrived today, what a cracking bit of kit! Been playing for 30 years and have never had a pick that is as secure, accurate and versatile! I'm using the "sharp" end for guitar and the large round end for bass. Thanks mate, Raptor picks from now on!! Cheers**

**Hi Nic,**

**I received my picks today and cannot believe they arrived so quickly. The Royal Mail must function better than does the United States Post Office. Cheers,**

**Hi Nic,**

**Picks arrived this morning and had to comment on them. I usually use a 3mm Dunlop jazz pick so I was a bit sceptical about the raptors claims as I am sure you can imagine.....wow!!! I have been playing for 25 years and teaching for 10 and I have to take my hat off to you for these. Being able to spin between the points in your finger for tone differences is superb, and the pinch cut out , which I didn't think would be that useful, is amazing and that's comes from a lover of all things harmonic and squeals !! Truly the best pick I have ever found and like all guitarists I have tried them all!!! Just had to give some feedback. Cheers.**

**Hi Nic,**

**Got my new Raptor Picks today and I have to say wow! I have quite a few of the older machined ones which I would sand and polish up, but these new moulded ones are on a whole new level. They just sound nice and tight and clear, super smooth on the strings and grip well in the hand, awesome! Many thanks.**

**Hi Nic,**

**I was pleasantly surprised to receive my order of two black Raptor plectrums in the mail yesterday – that is stunningly fast turnaround from the UK. I'm very impressed. I'll be recommending these to my friends to try, and ordering more myself.**

**Hi Nic,**

**Thank you so much for the raptor picks, I have tried so many different picks over the last year and have never found one that I really liked.....until now. Not only do they feel comfortable, they don't slip either and I love the different tips, once again thank you very much for a great pick. All the best, a happy customer**
